

### Questions to Ask Your Eye Specialist

- Given my medical history, lifestyle, and family background, am I at risk for glaucoma?
- Given my risk factors, how often should I be tested for glaucoma?
- Can you test my eye pressure? (Note that not all eye specialists will have the facilities to do this.)
- Is my eye pressure normal?
- Do I need to lower my eye pressure?
- Is my optic nerve healthy?
- I don't feel any symptoms, but do you see any indication of vision loss?
